Activity Room For Junior School

This is a special room for small children, where through various aids and play equipment, children learn various skills and enjoy learning through activities in the play way method.

MUSIC & DANCE

Special emphasis is laid on training the children in Indian classical music and dance forms. They are taught to play various musical instruments. It builds confidence, coordination and kinesthetic intelligence.

ART AND CRAFT

This is a room where children give shape and colour to their esthetic imaginations. An experienced art teacher helps students to learn various art forms and handicrafts.

ABACUS, MATHEMATICS & VEDIC MATHS

A gratification learning for children that helps in developing interest to improve accuracy, speed, better calculation, logical and analytical skills improves mental calculation and enables the children to adopt creative math problem-solving strategies.

SOCIALLY USEFUL PRODUCTIVE WORK

A variety of SUPW's such as painting, best out of waste, cooking, baking, handicraft, Pet love, gardening, music, dance, magic, play, drama etc and many more. These help them discover and nurture talent outside the classroom.

Welcome To DPS Junior International

DPS Junior international provides a happy, safe and inclusive environment where every child is encouraged and motivated to dream, explore and question. There is no rush to accomplish but a relaxed pace which is both rewarding and fun. We incorporate both contemporary methods and traditional values to give each child the best possible start in life.

We build successful relationships with parents and teachers, to support each child's learning and development. Our school recognises that all children are unique individuals, that they are all special in their own way and are the future.

Our approach settles children and enhances their learning by offering them with a broad range of learning experiences in every session.

We are a team of like-minded, passionate dreamers who want to build a much-coveted creative space of learning in the preschool universe which is full of joy, fun, challenges, dreams and innovations. We take great delight in building a magical world of rock n roll where every child will love to be because life is after all a reason to dream.

"Intelligence plus character—that is the goal of true education."

Martin Luther King, Jr.

MISSION

We have a strong focus on sustainability, ecology, outdoor play and organic living. Focus on developing each individual child to their full potential using smart tools and methods. Let's join hands to cultivate our little blossoms and nurture them into wonderful human beings.

VISION

In a nurturing and play-based environment, our curriculum builds children's self-esteem and problem-solving skills, while fostering respect for themselves and others.

Extra Curricular Activities

Extra-curricular activities in art and environment education are necessary for the overall development of our students at the preschool level. Students learn to interact and communicate and develop their social skills as they engage in these activities.

SMART CLASS

This is to enable the students to have computer-aided learning. It helps the student to understand the subject in a more refined way with audio and visual, making learning more interactive and engaging.

OPEN AIR THEATRE

A unique concept of open-air theatre enables the students to present themselves in front of the crowd with aplomb and help in overcoming stage fear and shyness.

SPORTS FACILITIES

Sport at DPS Junior International is not considered as a substitute or refreshment after studies. It is rather a continuous process at the school to identify and develop a student's talent by providing adequate facilities for indoor & outdoor sports. "ALL WORK AND NO PLAY MAKES JACK A DULL BOY". The best stress busters for students, it improves their physical as well as mental strength.

YOGA CLASSES

The world-acclaimed art of yoga, which teaches the students about self-discipline, power of concentration and meditation. Yoga develops focus to help children with gross and fine motor coordination. It builds a foundation for a healthy development of body and mind.

Attributes of DPS Junior international

HEALTHY & SERENE ENVIRONMENT :

DPS Junior international strives to be a school with a different where the emphasis lies not only in garnering academic excellence but to create a stimulating ambience which would usher in the blossoming of body ,mind and soul of the child ,enabling him/her to culminate into a complete individual. Here efforts are put into making the environment student friendly ,where learning becomes a joyous experience .There are spacious and airy classroom with proper furnish ,fully equipped activity room .The solitude of the surroundings will sprinkle peace and calm into the lives of the children who would come to study at DPS Junior international.

DEVELOPING AFFINITY WITH OUR RICH CULTURAL HERITAGE:

We, at DPS Junior international emphasize a lot on our Indian values & culture. We teach our student to be secular at heart, scientific in mind & respectful in behaviour. We encourage them to chant the Vedic hymns, Read the Gita , recite Shabad & praise Allah.

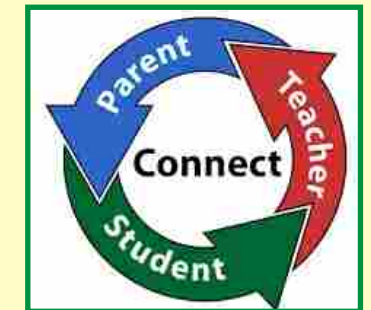

INCULCATING SOCIAL & ENVIRONMENT CONSCIOUSNESS

The students right from the beginning are taught to develop a feeling of empathy ,so that they inculcate a consciousness towards their environment & society on the whole .Growing tree, saving our earth ,saving water, pollution, preserving electricity .

EDUCATIONAL TRIANGLE

The contribution of teacher, parent and student is immense in the field of education if any one pillar is missing in this educational triangle, then the process of education gets hampered. Thus, in order to give it strength & support, we organize Parent Teachers Meet at the end of every term. Parents are also invited to various programmes frequently to witness the progress of their wards.

CONSTANT EVALUATION

The system of continuous & comprehensive evaluation (CCE) is being followed in all classes . The academic session is divided into three terms. Constant evaluation keep the teachers , parents & students informed of areas which need improvement .Doing away with granting of marks & replacing it with grades has made education more child friendly

Our Facility

Academic Values

We understand that children of age 2 to 6 need to be active engages in 12 different are to strengthen their brain cells and develop holistically .
