The modern world likes to take credit for many technological inventions, but we fail to mention that often many of these "discoveries" are nothing but re-inventions based on the knowledge our ancestors possessed long ago.

In ancient times, India was one of the most advanced nations in the world. India has made many valuable contributions to the world. Centuries ago, Indian sages had the kind of knowledge which many modern scientists lack. Many Indian sages made discoveries that no one could think of back in those times.

In this top list, we present some of the most prominent sages from India who made some mind-blowing contributions.
